

CONCRETE & CONSTRUCTION P/L

ENVIRONMENTAL POLICY

GBG Concrete & Construction is committed to delivering safety, environmental and quality standards throughout its operations.

GBG undertakes to:

- **Manage its operations and activities to comply with applicable environmental laws, regulations, licences and other commitments to which the company subscribes, complying with all requirements of ISO14001.**
- **Apply the principles of hazard identification, risk assessment and risk control.**
- **Maintain a high level of environmental awareness**
- **Consult regularly with relevant stakeholders to promote continual improvement of our practices and performances**
- **Protect the environment from any disposal of waste**
- **Dispose of waste whether contaminated or not in the appropriate manner and receptacle**
- **Commit to the continual development and implementation of energy efficient processes and practices**
- **Support and respect traditional rights and any cultural issues relevant to the workplace**

The environmental policy shall be coordinated with the quality policy and occupational health and safety policy. The policy will be communicated and implemented in a cooperative work environment on all our projects and workplaces.
